A PRINCELY GIFT.

An Indiana Man Endows the National Red Cross.

BIGGEST DONATION ON RECORD.

A Valuable Tract of Land on Which is Located a Village, a Postoffice, Barns, Tenant Houses, Orchards, Forests, Including Groves of Sugar Maple, Quarries of the Famous Bedford Oolitic Stone, a Beautiful River Frontage of One Mile and Springs of Excellent Water.

WASHINGTON, Feb. 23.—Dr. Joseph Gardner of Indiana has donated a very valuable tract of land in his state as a permanent endowment for the American National Red Cross. His letter tendering the gift, which is self-explanatory, is as follows:

BEDFORD, Ind., Feb. 10.
Miss Clara Barton, President American National Red Cross:

DEAR MADAM—After consulting our mutual friend and co-worker, Mr. J. H. Morlan, as to the probable acceptability of a tract of land which I would like to dedicate as a thank-offering to humanity, I have concluded after mature consideration that this end can not be in any manner so completely and permanently attained as by placing it under the control of yourself, as the honored president of this dearly beloved almoner of humanity. From my personal knowledge of your ability to make small amounts of money do the work of large ones, and of your abiding and all-abounding charity, which I have often seen rob you of your personal income, when all the better instincts of the rest of us said that we were not bearing our share of the common burdens—I have known your toilsome days and sleepless nights in the discharge of the onerous duties which your exalted position have made obligatory upon you—and believing that by having ample lands and houses situated within a few miles of the center of population of the United States, you could do better work, and knowing that you are as skillful in managing that class of property as money, and, dear madam, the further fact that you have approved of one of your most trusted followers becoming the light of my own household; for all these reasons I feel that your acceptance of this trust will be a continuing benevolence, until great calamities shall cease to visit the earth; and my judgment leads me to desire that whatever antemortem offering I am able to dedicate to the stricken of the world shall be under your supervision.

The tract of land I have the pleasure of offering to you for the home of the National Red Cross is of more than one square mile in area, or, specifically, 783 acres; and though not improved to the standard of excellence that I could wish for your sake, yet it has upon it a village, a postoffice, barns, tenant houses, orchards, forests, including groves of sugar maple, quarries of the famous Bedford oolitic stone, a beautiful river frontage of one mile and springs of excellent water. A trunk line of railway passes through it and three other lines of railway are near it, making it easily accessible for shipping purposes to all parts of the country.

For speedy transit it leaves little to be desired. It is three hours from Louisville, four hours from Cincinnati, four hours from Indianapolis, six hours from St. Louis and seven hours from Chicago.

Should you accept this trust, perhaps, as president, you would find it less trouble to appoint one person to act under your supervision and permit me to appoint another, thus giving you two helpers, and relieving you of troublesome details that could as well be delegated to others.

Perhaps other benevolent persons may discover that they may surely and economically assist in erecting such educational, charitable or philanthropic edifices as you will observe the need of, for which abundant material of both wood and stone are on the grounds, and also assist in stocking its stables, parks and pastures, to meet the steady demands of benevolence or of emergencies.

Should your other friends, such as know your work for stricken humanity and believe in your methods of benevolence—and their name is legion—desire to find a place where their own benevolence may reach through all generations, I feel assured they will, of their abundance, gladly appropriate a portion to aid the gentle dews of heaven to bring forth plenteous harvests of happiness.

Dear friend, God willing, you have seen the worst, and "at eventide there shall be light."

J. GARDNER.

MARCHING UNDER TAVAREZ.

A Strong Force of Revolutionists Will Try to Take Porto Alegre.

VALPARAISO, Feb. 23.—With an army of 4,500 which has been mobilized under the command of General Tavaréz, the federal revolutionists of Rio Grande do Sul, Brazil, have begun their march toward Porto Alegre. This important news has just been telegraphed by a newspaper correspondent in Artigo.

General Tavaréz began his forward movement yesterday. His first object is the capture of Santa Ana, which was fortified by the Castilistas a few days ago, and when that town comes into possession he will establish there his base of supplies. Then General Tavaréz' forces will march toward Porto Alegre.

German Exhibits Arrive.

BALTIMORE, Feb. 23.—The Hamburg-American ship Slavonia with a large consignment of German exhibits for the world's fair, arrived at her pier Tuesday morning. The Slavonia came via New York, and left the latter port Sunday night, experiencing exceedingly rough weather on the trip. The exhibit is contained in over 500 cases, and will at once be sent direct to Chicago. Quite a crowd gathered on the pier to see the big ice-covered ocean traveler come in.

CLASSIFICATION OF WOOL.

Important Circular Issued by the Secretary of the Treasury.

WASHINGTON, Feb. 23.—The treasury department Tuesday issued the following important circular establishing the new classification of wool samples:

TREASURY DEPARTMENT,
WASHINGTON, Feb. 21.
Paragraph 379 of the act of Oct. 1, 1890, provides as follows:

The standard samples of all wools which are now or may be hereafter deposited in the principal custom houses of the United States under the authority from the secretary of the treasury shall be the standards for the classification of wools under this act, and the secretary of the treasury shall have the authority to renew the standards and to make such additions to them from time to time as may be required, and he shall cause to be deposited like standards in other custom houses of the United States when they may be needed.

Paragraph 380 of said act provides that "whenever wools of class three shall have been improved by the admixture of merino or English blood from their present character as represented by the standard samples now or hereafter to be deposited in the principal custom houses of the United States, such wools shall be classified for duty either as class one or as class two, as the case may be."

In pursuance of the above provisions of law the department on or about the 14th of April, 1891, appointed the following committee to advise the department as to the propriety of adding to or renewing the standard wool samples then in use: Mr. E. A. Greene of Philadelphia, chairman; Nicholas Manger of New York city, John T. Rich of Alba, Mich., and John L. Houston.

In their final report, which is dated Feb. 15, 1893, the committee remarked that the principle of classification recognized by them was that of race and blood only, and not that of use or adaptability, and they further state that, in their classification, it will be found that there are wools in the first class suitable only for carpets and others in the third class from which a fair article of clothing could be made.

Cabinets of the standard samples prepared by the committee will be furnished to the collectors at all of the principal ports.

The committee recommend that samples of such wools as are lacking from the cabinets prepared by them should be procured and added to the cabinet; also that the customs examiners at the several ports should take samples of any wools not included in the standard samples and should advise the department whether such wools should be added to the cabinet.

The committee further recommend, that in order to indicate the different classes, samples of wools should be numbered upwards from No. 1; first-class wool from No. 101; second-class wool from No. 201; third-class from No. 301. The samples contained in the cabinets are numbered and are established as standards for comparison in the examination and classification of wools, pursuant to the provisions of the act of Oct. 1, 1890, entitled "An act to reduce the revenue and equalize duties on imports, and for other purposes."

Appended to the circular is a catalogue of wool samples.

HEATERS HOT.

An Attempt to Form a Trust Proves a Failure.

TOLEDO, Feb. 23.—The head men of all the heating and ventilating companies in the country are here endeavoring to form a trust, but they can not agree. Boston, New York, Elmira, Troy, Philadelphia, Washington, Chicago, St. Paul, Denver, San Francisco, Cincinnati, Bloomington, Toronto and Toledo concerns are represented.

The various concerns are at swords points. Some hold that the others have stolen their patents, advertising ideas, etc., and the representatives will not come together, although they have been three days trying to do so. They are divided into groups, meeting in different rooms and communicating with each other only in writing. One of the largest firms in the country, the Smead company, has withdrawn from the discussion and its representative states that when the others agree on one thing or another his company will consider it. If it is to their liking, they will go into the trust; if it is not, they will remain out. The latter proceeding would break up the combination at the start. The Smead people hold the key to the situation.

DESPERADO MORTALLY WOUNDED.

One Instance of How Things Are Done Out in Kansas.

IOLA, Kan., Feb. 23.—Early yesterday morning a man entered the waiting-room of the Santa Fe depot with a revolver in each hand, and marching up to the ticket window, broke in the glass and said to the night operator, William F. Tyler: "Throw up your hands!"

The operator jumped for his revolver, got the drop on the man and shot him in the head. He fell to the floor mortally wounded and will die.

The night operator at Humboldt was held up about 9 o'clock the previous night and a few dollars obtained. It is thought the man shot here is the one who attacked the Humboldt agent.

MACHINE SHOP BURNED.

WABASH, Ind., Feb. 23.—Fire yesterday consumed the machine shop of A. T. Wood at Lagro, this county, entailing a loss of \$2,000, chiefly on machinery. The blaze started from a gasoline stove. There is no insurance.

Canada Don't Want Our Money.

OTTAWA, Feb. 23.—The city treasurer has given orders that no United States money shall be taken at the offices of collectors at the city hall.

WRECKSON THE ROAD

Railroad Disasters at Different Places.

PEOPLE KILLED AND INJURED.

A Collision at a Philadelphia Crossing in Which Five People Are Killed and a Number Seriously Injured—Mail Train Wrecked on the Pittsburg, Fort Wayne and Chicago.

PHILADELPHIA, Feb. 23.—The north-bound express on the Pennsylvania road which left Broad Street station at 10:20 yesterday forenoon, collided with the Morton (Pa.) accommodation train near South Street station, West Philadelphia. Three cars of the accommodation train were wrecked.

A rumor gained wide circulation that the special train bearing President Harrison from Washington to New York was one of the trains in collision. This, however, was untrue.

The following were killed: Mr. and Mrs. E. L. Minzer of Media. Miss Maria Read of Media. Rev. James Walker of Lenni. Ten people were injured, but none seriously.

Mr. and Mrs. Minzer were sitting together and both were decapitated.

A number of prominent persons were passengers on the express train, among them Congressman Dingley and Belknap, ex-Postmaster General Frank Hatton, Senator Washburn, Major John M. Carson and U. P. Painter, well known Washington correspondents. All rendered what aid they could to the injured passengers, but no one was more energetic than Congressman C. E. Belknap of Michigan. He grasped the awful situation at once and did splendid service in rescuing the wounded and caring for the dead.

Mrs. Minzer's head was severed from her body and left on the roadway. The very sight of it frightened people away. Congressman Belknap tenderly picked it up and placed it by the body.

Several of those on the express train who had left Washington for New York with the object of witnessing the American flag on the steamship New York were so overcome by the distressing scenes and terrible suffering of the injured that they abandoned their trip to New York and returned to the capital.

The train having the presidential party was delayed only a short time a short distance below the wreck and then proceeded to New York.

The responsibility for the accident seems to rest upon Engineer Thomas Jones of the express. Charles Bickins, the towerman, says that he had the danger signal up for the express to stop, but that it was ignored and the crash followed. Engineer Jones is one of the most experienced engineers on the road. Jones was completely prostrated by the terrible results of the collision, and after rendering what aid he could in removing the dead and wounded, he went to his home in this city, where he is now confined to his bed. Jones could not be seen, but his wife said that her husband told her that he did not see the danger signal displayed until he was almost up to the accommodation train. He did everything in his power to stop the train, but the heavy cars slipped on the icy tracks and the engine went through the car of the accommodation.

Little Edward Mintzer, the 10-year-old son of Mr. and Mrs. Mintzer, who were decapitated and instantly killed, told at the university hospital, whether he was taken after the collision, how he escaped uninjured: "Mama and I were sitting side by side in a seat and I was talking to her. She had a book, but she was not reading. It was lying in her lap. And then, all at once, the locomotive came through the window. And, wasn't it nice? I was not a bit hurt. I found myself lying right out on the ground and mama and papa were nowhere to be seen. I don't know where they are now, but I guess they'll be here pretty soon."

The child had not been informed of the awful fate of his parents, of which, happily, he had no suspicion.

MAIL TRAIN WRECKED.

One Person Killed and Fifteen Others Injured.

FORT WAYNE, Feb. 23.—The east-bound mail and express train No. 20 on the Pittsburg, Fort Wayne and Chicago railroad, due here at 12:20 p. m., was wrecked two miles east of Columbia City, Ind., about 11:30 yesterday by a broken rail.

The engine, mail and baggage cars passed over the broken rail safely. The last two cars on the train were precipitated down an embankment 20 feet high, the cars turning completely over and being badly wrecked. One man was killed and 15 dangerously injured, some of the latter no doubt fatally.

Shot His Uncle.

COLUMBUS, Ind., Feb. 23.—Monday at his home in Washington township, William Moore called on his nephew, Day Moore, to transact some business. The nephew held a revolver in his hands, and when his uncle entered the house, fired. The ball passed entirely through his right lung, and from the effect of this wound the uncle died yesterday. Young Moore is under arrest.

Arrested For Arson.

ALLIANCE, O., Feb. 23.—Jerry Tierney was arrested Tuesday charged with being implicated in the burning of the Ellen Tierney restaurant for the purpose of getting the insurance money. This is the fire in which William Culley was horribly burned by a gasoline explosion. Culley is not expected to live, and is said to have made a confession.

HUSTLING.

The Senate and House Rushing Appropriation Measures Through.

WASHINGTON, Feb. 23.—Yesterday's session of the senate was prefaced by the reading of George Washington's farewell address. This appropriate commemoration of the birthday of the Father of his Country was introduced five years ago through a resolution offered by Mr. Hoar (Rep., Mass.); and on that occasion the address was read by Mr. Ingalls, who was then president pro tem. of the senate. Yesterday, under a like resolution offered by Mr. Hoar, it was read by Senator Manderson of Nebraska, who holds the same office. Mr. Manderson is a good elocutionist, and his reading had a close and respectful attention on the part of senators and visitors in the galleries.

There was little time wasted in finishing up the sundry civil appropriation bill; after which the conference report on the army appropriation bill was agreed to and the consular and diplomatic appropriation bill was brought before the senate. Before any progress was made on this bill the senate proceeded to the consideration of executive business.

The first of what it is said will be a daily series of conflicts between the appropriation bills and the anti-options bill, until the latter is acted on, was the feature of yesterday's session of the house. Mr. Hatch had grown tired of the delay to which the anti-options bill was being subjected to, and when it was moved to take up the postoffice appropriation bill he antagonized the motion with the measure of which he is champion. Being defeated, he made the same fight, also unsuccessfully, when the postoffice bill was passed and the Indian appropriations bill was called up. Members were thus put on record, and then the Indian question was discussed languidly for three hours.

GOVERNOR MCKINLEY ASSIGNS.

He Turns Over All His Property Without Any Preferences.

CLEVELAND, Feb. 23.—Governor McKinley has been in the city all week endeavoring to bring about some adjustment of his tangled affairs. Yesterday the following plan was agreed upon: The governor has made an absolute and unqualified assignment of his property to Herman H. Kohlsatt of the Chicago Inter-Ocean, Myron T. Herrick of Cleveland and Judge Day of Canton. The property is turned over without preference for the benefit of his creditors.

Mrs. McKinley has considerable property of her own which she has all along desired to turn over to be used in paying the notes that Governor McKinley must meet. Her friends have urged her to retain an interest in the property, but she has steadfastly refused to listen to any argument, and yesterday executed a deed to Mr. M. A. Hanna of this city, putting all her property in his hands. He is to do with it whatever he thinks best toward settling up the obligations incurred in the Walker insurrections.

Upon being asked if he had anything to say the governor replied: "There is little for me to say about this unfortunate affair. I did what I could to help a friend who had befriended me. The result is known. I had no interest in any of the enterprises Mr. Walker was carrying. The amount of my endorsements is in excess of anything I dreamed. There is but one thing for me to do—there is but one thing I would do—meet this unlooked for burden as best I can. I have this day placed in the hands of these well known gentlemen all the property I own or have an interest in. This will be insufficient to pay my debts. What remains I shall execute my notes for and pay them as fast as I can."

COLLISION OF FREIGHT TRAINS.

A Peculiar Accident on the Burlington Road Near Lincoln, Neb.

LINCOLN, Neb., Feb. 23.—Two Burlington freights, one a stock train, collided on a siding at Havelock, four miles east of here, about noon yesterday. The engineer and fireman of the stock train, seeing a collision was inevitable, reversed the engine and jumped. The force of the collision started the stock train back, and with no one in the engine to stop it, and going down grade, it gained rapidly in velocity. The twelve people in the caboose jumped for their lives. Scarcely had they got out when the runaway train crashed with terrific force into the second section following it, totally demolishing the caboose, badly wrecking six freight cars and killing 80 or 40 head of cattle.

The men that jumped from the car were brought to this city and placed in care of the company's physicians. All were badly cut and bruised, five quite seriously. They are: L. M. Larson of Loomis, Neb.; Harry Powers of Curtis, Neb.; L. Jarrett of Sutton, Neb.; W. O. Critchfield of Oxford, Neb., and John O'Brien of Grafton, Neb.

Series of Accidents.

DELAWARE, O., Feb. 23.—Mike Nelson, while coasting, broke his collar bone.

S. C. Rose, an elderly man, slipped and fell on the ice, sustaining a serious fracture of the hip. The hurt is in such a place that Rose can not recover, and he will probably remain an invalid the remainder of his life.

Emanuel Dillinger, a plasterer, employed on the repairs on the county courthouse, fell through a scaffold and sustained internal injuries. They may prove fatal.

Confessed Just Before Dying.

GALLIPOLIS, O., Feb. 23.—Charles Heatley and Miss India Watkins of Heatley, this county, were secretly married at New Philadelphia, O., Sept. 17, 1891, and nothing was known of their marriage until Tuesday, when Miss Watkins made a confession a few hours before she died of consumption.

CABINET COMPLETE.

Cleveland Has Selected All His Advisers.

THE LAST TWO A SURPRISE.

Richard Olney of Boston For Attorney General, and Hilary A. Herbert of Alabama For Secretary of the Navy—Mr. Cleveland's Callers.

LAKEWOOD, N. J., Feb. 23.—Mr. Cleveland announced yesterday evening that he had completed his cabinet by the selection of Richard Olney of Boston for attorney general and Hilary A. Herbert of Alabama for secretary of the navy.

The complete cabinet is as follows: Walter Q. Gresham of Indiana, secretary of state; John G. Carlisle of Kentucky, secretary of the treasury; Daniel Lamont of New York, secretary of war; Hilary A. Herbert of Alabama, secretary of the navy; Hoke Smith of Georgia, secretary of the interior; J. Sterling Morton of Nebraska, secretary of agriculture; Wilson S. Bissell of New York, postmaster general; Richard Olney of Massachusetts, attorney general.

The selection of Hilary A. Herbert for the navy has been expected for several days; but Mr. Olney's name had not been mentioned in connection with the cabinet and his selection is a surprise to everybody, particularly to the friends of George A. Jenks.

Hilary A. Herbert has been in congress for many years, and has acted as chairman of the naval committee of the house. He is thoroughly familiar with the work that has been done toward placing the United States navy on proper footing, and his knowledge of the present condition of the vessels under construction and which have been planned makes him a most desirable man for the head of the department. His selection is also practically a promotion.

Mr. Richard Olney is one of the leading practitioners of the Massachusetts bar. He has not held any political position or been prominent in political matters, but is known as one of the leading lawyers and substantial citizens of Boston. His selection gives New England a representative in the cabinet, and that of Herbert gives the south three positions.

Mr. Cleveland's callers yesterday were Daniel S. Lamont and Mrs. Lamont, who arrived from New York at 3:30 p. m. and left at 6; Father Larkin and Captain P. J. Cunningham of Washington. Father Larkin is an ex-chaplain in the army and Captain Cunningham has a position in the war department. Their call was, they say, purely a patriotic visit to the president-elect on Washington's birthday. Mr. Cleveland remained at home all day.

Cleveland's Attorney General.

BOSTON, Feb. 23.—Richard Olney, who has been selected by President-elect Cleveland as his attorney general, is one of the most prominently known members of the legal profession, not only in this state but in the country. He has at least twice refused a place on the bench of the supreme court, and when the last vacancy occurred in the office of chief justice of the supreme court of the United States Mr. Olney was very prominently mentioned in connection with the place. These offers he has refused, and has devoted himself diligently to the practice of his profession. Although not active in politics, he has taken a great interest in public affairs.

He is at present general counsel for the Boston and Maine railroad, the Atchison, Topeka and Santa Fe and the Chicago, Burlington and Quincy railroads, succeeding in the latter position the late Sidney Bartlett.

Mr. Olney has always, so far as is known here, affiliated with the Democrats, except when the party in Massachusetts took General Butler for its gubernatorial candidate. Mr. Olney then refused to support the nominee of the party.

Mr. Olney was born in Oxford, Mass., in 1825, graduated at Brown university, class '56, and at Harvard law school, 1858.

Mr. Herbert Interviewed.

WASHINGTON, Feb. 23.—Representative Hilary H. Herbert has just returned from a reception when the official announcement of his selection by President-elect Cleveland as secretary was communicated to him by a United Press reporter. Mr. Herbert said that he had received notice of his appointment in a telegram from Mr. Cleveland early in the evening, and that he sent a reply accepting the honor conferred upon him. Mr. Herbert, in the course of a few minutes' conversation, said that in the administration of the office about to be entrusted to him he expected to carry out the liberal ideas for building up and promoting the navy, which were begun by Secretary Whitney and continued by his successor, Mr. Tracy, and of which he had himself been an earnest advocate.

Resulted Fatally.

HALIFAX, Feb. 23.—Pierce Stevens Hamilton, the well known literateur of this city, who Tuesday attempted suicide by taking laudanum, died yesterday morning. He was about 70 years old.

WEATHER INDICATIONS.

For Kentucky, warmer, fair and southerly winds, probably followed by showers Thursday afternoon or night.

The Legislature may find out after awhile how to pass a measure that will escape the Governor's veto axe.

A mammoth ice trust is being formed at Cincinnati. The manufacturers and dealers who refuse to go in it will be frozen out of course.

The St. Louis Republic pertinently remarks that "if Mr. Cleveland is satisfied there is yet no apparent cause for complaint from anyone else, for it is he and not his Cabinet that is responsible to the people."

REPRESENTATIVE PAYNTER was the only member of the Kentucky delegation who has been in attendance all night," says the Washington correspondent of the Courier-Journal, in speaking of the long session of the House Tuesday that continued until next morning. No other district in the United States has a more faithful Representative than the Ninth Kentucky. Mr. Paynter is always found at his post of duty.

WHAT next? A London chemist has at last succeeded in converting air into a liquid. By the use of nitrous oxide (commonly known as laughing gas) and ethylene, a temperature of 318° below the freezing point was obtained, and at this stage, with a pressure of 750 pounds to the square inch, the oxygen and nitrogen of the air pass to the liquid state. The nitrogen produces a colorless liquid and the oxygen a liquid of a slight blue shade. The London Daily Telegraph says: "For the first time in their lives—and nearly the first possible in the history of this planet—the favored audience saw the air they breathe as a fluid boiling vehemently at a degree of cold almost inconceivable. It will help to show what this temperature means if we observe that compared with ice it is twice as hot as boiling water is to ice."

"The opposition, to the payment of pensions among the people, as a rule, has no reference to the allowances that have been made to deserving men who are really disabled as a direct result of exposure or injuries directly incident to actual and honorable service. The feeling has reference alone to those who have seen no honorable service; to shirks, deserters, bounty jumpers and others who have been able to get their names on the pension rolls through the amiability of pretended comrades, or friends who think it no harm to aid a needy acquaintance to obtain a small, quarterly stipend from the Treasury."

"That there are thousands of such persons on the rolls, no one at all familiar with the subject can doubt. In every community such persons are known, or suspected to be drawing pensions, yet no one seems disposed to make it his business to have such frauds exposed."

The above, clipped from the Cincinnati Tribune, a Republican journal, voices the BULLETIN's sentiments on this question, and we believe it expresses the feeling of every honest and patriotic veteran of the late war.

PURGE THE PENSION LISTS.

Mr. John De Witt Warner has presented to the House of Representatives an earnest appeal of Union veterans in favor of purging the pension roll. It urges the adoption of the following reforms in the existing pension laws and the administration thereof:

First—The payment of pensions only to those who, by wounds or disability, have been actually disabled in the service of their country, and to the widows and orphan children of such pensioners when in need.

Second—A cutting off from the pension roll of all men, disabled or otherwise, who are in the receipt of incomes ample for their support and the maintenance of their families.

Third—A cutting off from the pension roll of all deserters and soldiers or sailors who proved false to their oaths and were dishonorably discharged from the service.

Fourth—The appointment of the necessary medical and other examining boards to revise the pension lists for the purpose of carrying out these reforms.

Fifth—The absolute discontinuance of all further legislation looking to the enlargement of the pension list.

Sixth—A cutting off from the pension roll of all widows who shall appear, upon reasonable evidence, to have married veterans with the fraudulent intent of securing a pension upon the death of their husbands.

Seventh—The application of such portion of the saving made by these reforms as may be necessary to afford them a reasonable competence to the increase of the pensions granted to deserving and disabled veterans who actually served and were honorably discharged, and of the widows and orphans of such veterans.

Among the signers are Generals Martin

T. McMahon and W. F. Smith, officers of all grades, and enlisted men.

In his speech presenting the petition Mr. Warner declared that he spoke in the name of veterans who were misrepresented by the demagogic appeals of the advocates of the pension agents, and demanded that the "whole pension system shall be, as it ought to be, an honor to the country and a glory to its beneficiaries."

This is the whole case in a nutshell. Pensions are not only depleting the Treasury, but are placing side by side with honorable veterans the very off-scourings of the war. The pension shark and the pension cheat are touching elbows with brave and deserving old soldiers. They should be weeded out. The pension lists must be purged, says the New York World.

THE Louisville Commercial's cartoonist is carrying things entirely too far when he pictures Colonel E. Polk Johnson as a negro seeking a job from Mr. Cleveland. Such a caricature was conceived in malice, and will injure the Commercial more than Colonel Johnson.

Railway News.

The C. and O.'s pay train passed over the road this week.

In the month of January there were 273 railway accidents in this country, in which forty-nine persons were killed and 329 injured. Of the number killed, eleven were passengers and thirty-eight employees; of the number injured 155 were passengers and 170 employees. During the month there were 104 collisions and 157 derailments.

Circuit Court.

The trial of the case of Stickley against the M. and B. S. Railroad Company resulted in a verdict of \$300 for plaintiffs. They sued for \$1,000 damages to their property on north side of Third street, Fifth ward. The trial of Combeis against the same company is in progress.

The bail of Wm. Vaughn, who is in jail charged with forgery, was reduced from \$500 to \$300.

County Court.

Wm. Karr was granted license to retail spirituous, vinous and malt liquors. An account of the Troup Manufacturing Company of \$34.75 for record books for County Clerk's office was allowed and ordered certified to the State Auditor for payment.

WEST VIRGINIA seems to be a great territory for the successful working of skin games and swindles, says the Ashland News. Lately a fellow got off with half the washing machines in Huntington on a pretext of repairing them. Then came the disappearing silverware, also taken to be cleaned. Later, from back in the State, came reports of green goods men, lightning rod and wire fence fakirs, followed by the stolen bicycle dodges, and now the picture enlarging fraud is abroad in the land.

THE Philadelphia Press is authority for the statement that Robert Hansborough, of Chillicothe, O., is the owner of a cow that gives black milk. The cow is a mixture of Jersey and Durham and was raised on the Hansborough farm, as was also her mother and many sisters, none of whom exhibited any peculiarity in the color of their milk. "Mollie," as this phenomenal creature is called, has reared five or six calves, all of which have lived and grown fat on the black milk. The milk produces a fair amount of cream. This cream is a trifle lighter in color than the milk itself, and when churned makes a kind of butter that resembles a thick mixture of coal tar. The Press has evidently added Joe Mulhatton to its staff.

Woman, the noblest of God's creation, and may her shadow never grow less, unless she will persist in wearing the old-fashioned, three-quarter-acre hoop skirt of our grandmam's days.

The Iron Queen received a big invoice of mill feed from P. N. Bradford, consigned to Pittsburg, Wednesday. This firm has a large trade in Pennsylvania. So much for manufacturing No. 1 goods.

In the cutting affray between Louis Sutton and Enoch Daniels the other night, Daniels was cut bad enough to require Dr. Heaton to sew the wound up. Daniels, on pleading guilty before 'Squire Purdon, was fined \$7 and costs.

If you have friends visiting you, are you going away; if you get bit by a dog, expect an attack of James-Jams, or anything else that you would like mentioned through these columns, make a note of the fact and leave at S. P. Campbell's shotecary and it will be attended to.

THE WESTERN AND SOUTHERN

Issues the most liberal Life and Endowment Policies of any Industrial Company. Their advantages combine immediate benefits in case of death, paid up values after a specified term, and incontestability after having been issued three or more years.

Why insure in the Western and Southern?

Because it has paid \$100,000 in Death Claims. Because it has issued over 110,000 policies. Because its policies are in immediate benefit and their payment is absolutely guaranteed by the company's assets and a special deposit of \$100,000 with the State Treasurer for the sole protection of the policy-holders.

LOTS OF MONEY.

Grover Will Pay \$475 Per Day For His Rooms at the Arlington Hotel.

A gossiping Washington correspondent writes as follows in regard to the temporary quarters selected for the President-elect at the Arlington: "The particular rooms which already go glibly as the 'Cleveland rooms' are on the second floor, and include a parlor, dining room and three bed rooms for the especial use of Mr. Cleveland and family; also a parlor and three bed rooms for Colonel Lamont and a parlor and three bed rooms for Mr. Dickinson.

"Entering a hall where an exquisite Venetian lamp burns softly in lieu of sunshine, which is shut out, to the right opens Mrs. Cleveland's spacious parlor. Her five windows afford a flood of light, subdued by draperies of delicately wrought lace and lustrous silk.

"Leading from the drawing room is Mrs. Cleveland's bed room. In the adjoining bed room a small white and gold bedstead is assigned to baby Ruth. Beyond this is Mrs. Cleveland's room.

"Opening to the left from the hall is the dining room, which is furnished in oak with a glittering array of china and cut glass. It is interesting to know that Mrs. Cleveland will use a knife, fork and spoon, which were once the property of Empress Eugenie, and that the President-elect will drink his coffee from a cup that was once the property of Napoleon Bonaparte.

"Colonel Lamont's parlor communicates with the dining room, with Mr. Dickinson's directly opposite. The entire suite is so placed that it can be wholly separated from the remainder of the hotel. This will be done by means of a screen placed across the corridor, at the opening of which Mr. Cleveland's butler, Sinclair, will be stationed. Mr. Cleveland will be accompanied by four servants, in addition to baby Ruth's nurse.

"A chief, with two assistants, will be entirely at his service. The President's board bill will be \$475 per day, not including the charge for the extra service which he has."

AT Richmond, John Ballard has brought suit against the Kentucky Central Railroad for \$30,000 damages. A month ago he and his family were struck by a train and some of them injured. The father is deaf and could not hear the approach of the train. It is claimed that no signal was given.

MARCH 13 is the date on which Owensboro will vote on a proposition to issue \$75,000 of bonds for permanent street improvements. The bonds are to run forty years and bear not to exceed 5 per cent., and to pay the interest and to provide a sinking fund an ad valorem tax of 10 cents on the \$100 is ordered.

LAST year 4,000,000 pairs of the Diamond spectacles were made. This gives some idea of the enormous demand for them, and is evidence of the superior quality of these goods. Ballenger, the jeweler, sells these spectacles. Call on him if you need anything in that line. The Diamond is guaranteed to give satisfaction.

THE Vreeland Operatic Minstrels were the attraction at the Academy of Music and were greeted with a large and enthusiastic audience. The performance was fine. George Hassell, the soprano, was the best that has appeared in this city for some time. The other specialties were fully up to the average, and pleased the audience. They have booked a return date.—Gazette and Bulletin, Williamsport, Pa., August 26.

MR. CLEVELAND's selection of Mr. J. Sterling Morton for Secretary of Agriculture is commended on every hand. Here is what the New York World says of him: "The proprietor of a 'model farm' in Nebraska, who has made a scientific and practical study, of agriculture, horticulture and arboriculture for twenty-five years, besides being a sound Democrat all that time, ought to make a model Secretary of Agriculture. Mr. Morton is universally recognized as 'the right man in the right place.'"

THE CELEBRATED JOHN VAN RANGES.

SECRETARY JOHN W. FOSTER.

He Will Retire From President Harrison's Cabinet.

WASHINGTON, Feb. 23. — Secretary John W. Foster will today retire from President Harrison's cabinet and from the administration of our foreign affairs for the purpose of assuming the active directorship and management of the case of the United States before the international tribunal, which is to assemble in Paris today for the arbitration of the questions in controversy between the United States and Great Britain in connection with the sealing industries of Behring sea.

The meeting of the tribunal today will be purely informal, however, an arrangement having been made that the case shall be formally presented at a subsequent meeting to be held March 23.

Secretary Foster will leave this afternoon for New York, whence he will sail on Saturday on the new American steamship New York for Southampton, proceeding then to Paris. He will be accompanied from New York by Senator Morgan, one of the arbitrators and Messrs. Hubbard T. Smith and Francis S. Jones, attaches; Mrs. J. W. Foster, Miss Cockrell, daughter of Senator Cockrell; Miss Halford, daughter of Private Secretary Halford, and Miss Williams, daughter of General Williams. Judge Blodgett, one of the American counsel, will also sail from New York Saturday per the Normandie.

LITTLE GIRL IMPRISONED.

She Will Be a Young Woman When She Gets Out.

INDIANAPOLIS, Feb. 23.—Jessie Friend, the 11-year-old girl who was arrested at Fort Wayne some time ago for passing counterfeit money, was placed on trial in the federal court yesterday. Several merchants of Fort Wayne testified that she had made small purchases from them and they had taken the money presented by her and given her the change.

It was shown that she had passed 22 spurious silver dollars in that way, generally making 5-cent purchases and getting the change in good money. The defense attempted to show that she was so young that she could not detect counterfeit money, but on the stand she showed an intelligence beyond her years. She was found guilty and sentenced to 10 years in the female reformatory.

BETTER WEAPONS.

The Martini-Henry Rifle Urged For the Canadian Military Force.

OTTAWA, Feb. 23. — Addressing a meeting of Canadian riflemen Tuesday, the governor general urged that the military force of the Dominion be armed with Martini-Henry rifles instead of the obsolete Snider arm.

In the house of commons Messrs. McNeill and Weldon, as a matter of privilege, stated that they had called on the governor general for the purpose of calling the attention of the imperial authorities to the danger of allowing the Nova Scotia coal mines to pass under control of American capitalists, and that they did not bring the matter up in the course of a casual visit to Lord Stanley, as the premier had stated.

Mr. McCarthy presented petitions to the government signed by 14,000 farmers, praying for a reduction of the customs duties upon articles generally used by their class, and complaining that the home manufacturers were abusing the privilege secured through the protective policy.

SCHEMING CELESTIALS.

A Shrewd Method by Which They Were to Evade the Exclusion Act.

CHICAGO, Feb. 23.—Hip Lung and Sam Moy, two of Chicago's wealthiest Chinamen, conceived a brilliant idea, which, if the federal authorities had not been fully awake, would have netted the shrewd Celestials a cool \$100,000. The Chinamen announced that it was their intention to erect a building for theatrical purposes and import 500 of their countrymen as actors. Hundreds of plans were drawn up and sent to the large cities of China to those who were able to pay their passage and \$250 into the funds of the syndicate. Uncle Sam's minions, however, upon investigation discovered the theater talk was a blind, and the whole thing was a well-planned scheme to enable 500 Chinamen to evade the Chinese exclusion act and enrich the promoters of the project. When the trick was discovered a large number of applicants for theatrical honors were about to cross the line at British Columbia.

INDIAN MASSACRE.

It Occurred on Sorrow Island Several Weeks Ago.

VANCOUVER, B. C., Feb. 23.—Stanley Smith, who arrived here from Bella-coola a few days ago, brings word that rumors are in circulation in that district of a terrible Indian massacre that took place a few weeks ago on Sorrow Island. Some Rivers Inlet Indians went there to hunt otter and on the island were some of the Kitkatalas tribe, further north, also hunting.

The story is that a Rivers Inlet man molested a Kitkatalas girl. Her tribe avenged the insult by killing the offending man. A general fight ensued and the Rivers Inlet men were vanquished. All were killed with the exception of three chiefs, who were spared because of their rank. These chiefs were imprisoned in a hut.

The victorious Indians held a powwow and it was decided that if the Rivers Inlet chiefs were allowed to return their tribesmen would avenge themselves, so it was decided to act or the maxim, "Dead men tell no tales." They were therefore shot to death.

The story was told to Smith by some Indians and he also heard it mentioned by several of the crew of the steamer Coquitlan, which had just returned from a fishing cruise in the locality.

Sorrow Island is quite distant from any trading post, and it is probable that the news of the massacre will not become generally known for several weeks. The Indian agent at Alert Bay has been notified of the matter and he is making an investigation.
